

# Time Series Similarity Search for Streaming Data in Distributed Systems

Ariane Ziehn, Marcela Charfuelan, Holmer Hensen, Volker Markl  
EDBT/ICDT 2019 Joint Conference - March 2019 - Lisbon, Portugal

## Erratum

Below we describe a terminology error in the similarity search section of our paper. Note that this error also appears in the published version of the paper. In the paper, we use the terms *Best Match* and *Motif Discovery* to describe the two different search modes of our application. The term *discovery* is misleading here as we do not perform pattern discovery. In our experiments, the pattern is given. With *Best Match Discovery* we aim to find the best matching sequence. With *Motif Discovery* we search for similar sequences within a distance range to the given pattern.
